

PRODUCE INTERNATIONAL - Understanding what the customer wants... making it happen

Produce International Srl is a procurement company supplying industrial materials, including electrical and mechanical products; we serve the Chemical, Petrochemical, Oil & Gas and Power industries.

A new brand with a history of quality and reliability, our company is growing rapidly, a success for which we need to thank both our customers and suppliers.

As a customer-driven company, we offer you our know-how in bulk procurement, we offer a global solution in the supply of materials and equipment, we analyze your needs, look for the most suitable products, purchase the material and organize its delivery according to your requirements, including all the technical documentation and required certificates.

Produce International Srl is certified ISO 9001:2008 and is currently working towards achieving ISO 9001:2015.

Produce International Srl offers a complete and professional service during all the phases of the project: already during the bidding phase, we provide assistance to the Customer, from design to field installation, up to the documents issue.

Thanks to the full range of products represented by Produce and the access to the international know-how of C.E. Concurrent Engineering, we can

provide complete and comprehensive answers in accordance with the reference standards (Americans, British, Canadians or Europeans).

Produce International Srl is your reference partner for the supply of solutions oriented to the full satisfaction of customer needs, with a unique combination of excellence in product management and logistic support. To this end, we also forged a partnership with GLOBO EXPRESS, in order to guarantee our customers a prompt delivery of the purchased material.

It is our goal to provide the best and most cost-effective product available anywhere in the world: we deliver what You want – any size, any grade, any quantity – when You want it.
