

Some things don't change. That is why this change is huge

Nonmetallic fluorescent equivalent for low maintenance lighting in hazardous locations

Task and general purpose lighting for harsh, rugged and hazardous locations

Flood and high bay lighting for harsh industrial and hazardous locations

Hazardous industrial locations have always demanded lighting fixtures that deliver utmost safety and dependable illumination for critical tasks. But some things are changing right before your eyes. Lighting designs in hazardous locations are increasingly responsible for energy efficiency and “green” operations to save money and precious resources. LED lighting has come to hazardous locations, and the FE / Mercmaster LED luminaire is setting the industry standard

for safety, performance and efficiency. To control the future, you need to see it – FE LED / Mercmaster LED – series of luminaries.

The choice for a smart future:

- FE LED
- Mercmaster LED Wellglass
- Areamaster LED high bay

No LED industrial fixture surpasses the Mercmaster LED luminaire in efficiency, performance and advanced engineering.
