

## PIEMME BROKER

### Official Hawke Junction Box Modifier

At PIEMME BROKER S.r.l. we don't just provide products; we work with our customers to create solutions.

Our simple, responsive processes deliver the best products on time and on budget, saving our customers time and money.

We supply electrical equipment to the global oil and gas and petrochemical industries. We are reliable, flexible, specialist, responsive, and offer services & solutions.

One of these services is our Junction Box Workshop, where we are a certified assembler & modifiers of Hawke (Part of the Hubbell Group) Explosion Proof Junction Boxes.

On 2020 we invest in CNC HAAS MACHINE to increase our capability and to provide rapid turn-around; we supply at very competitive pricing and comprehensive technical support.

Having a workshop like this at PIEMME BROKER is essential to us to produce these boxes at a timescale

dictated by our client. So, the client gets what they need when they need it.

Our full range of Hawke GRP and SS boxes can be modified and certified in-house to meet each client's specifications. With this workshop, we do not just provide products; we work with our customers to create solutions.
